Subject: Rotary Park

Hi Mike...Greg Reed from the Y would like to station 4 bicycles in Rotary Park, next to the Visitor's Center that people could rent & ride. This would be from May to September, while the volunteers are there. They would oversee these bikes during their shift. At the end of the day they would be locked up. Placing them here would be better than the Canal Basin....it's not supervised and is not as secure as on Main Street.

What do you think ?? We'd like to have them placed there sometime in May. We could try it for this year and see how much usage they would get.
