Response Report

October- 260 Total Responses

November- 82 Responses as of this morning

1. Austin graduated from the fire academy this past Thursday and is back on shift this week.
2. In October we responded to 260 calls. According to my records this is the busiest month we've ever had excluding months that we've had storms which can generate several calls.
3. Saturday night, crews battled a railcar fire which extended into a second railcar as well as the building. A quick response and excellent teamwork limited the damage to both the second railcar and building. The owners of the Olde Pickle Factory are very grateful.
4. Lastly, our annual Ball was a success. Thank you to those who were able to attend.
